2. The following is an examiner's statement of reasons for allowance: Ekstedt et al. and Chen et al. do not teach a method of controlling a semiconductor parametric test system that includes controlling via a control module concurrent operation of semiconductor test equipment and operation of parametric test instrumentation. Further, claim 29 is directed to a process that uses a control module. Although the control module may be computer software, as shown above, it is part of a statutory process with an useful, concrete and tangible result of controlling semiconductor test equipment and parametric instrumentation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
